COMPLETE THE SILO OPERATION...

A meeting where members of the management team share **INFORMATION** but the silo operation does not facilitate the management of cross-cutting issues.

What you have

...WITH AN EFFICIENT COLLABORATIVE APPROACH

A **DECISION-MAKING** meeting involving **STEERING THE EXECUTION OF THE STRATEGY** taking into account the short and medium term objectives.

Team dynamics allows the construction of solutions to **cross-cutting** problems based on analyzing the root causes. This approach will develop ownership that will facilitate action and contribute to the company's overall performance.
